

DO YOU HAVE A FLATBED PARTNER ON THE WEST COAST?

"The transport industry is facing a serious capacity shortage - one that is likely to only get worse as the economy gets better - threatening the ability of service centers to get metal from suppliers and ship it to customers."

Metal Center News

Doss Logistics offers the only true Flatbed LTL Network on the West Coast and the capacity to serve every freight need that your company can send our way.

An asset-based carrier with 10 locations throughout Arizona, California, Nevada, Oregon and Washington.

A unique industrial freight system to move more than 70,000 shipments annually.

Transit times are very similar to all the well-known common carriers and we keep a 95% on-time record. Lowest claim ratio <1%, the latest technology, and all the knowledge required to simplify the supply chain issues of the new economy.
